FOR IMMEDIATE RELEASE

SAPIENCE, A LOCAL EDUCATION COMPANY FOR CHILDREN INVESTS \$960K FOR WEEKLY 100% FREE WORKSHOPS FOR ALL NEVADIANS AND 100% FREE TUITION FOR KIDS IN ORPHANAGES

A local Henderson, NV education Company launches 100% free community educational workshop program teaching neuroscience, drama, abacus, arts, robotics, coding, boxing & more. This community investment in the community also comes with a commitment to offering free tuition for kids in orphanages in every Abacus class. The first official event will be hosted on Saturday, August 3rd, 2019 at 9731 S Eastern Ave, Las Vegas 89183 NV at 11 am.

Henderson, NV 7/27/19 – Sapience, a revolutionary education company that supports children in grades Kindergarten through 12th grade is dedicating \$960,000 over to support the Henderson & Vegas community with free weekly educational workshops for families and children. These workshops have an incredibly positive impact on children and range from Yoga, Drawing, Painting, Neuroplasticity, Philosophy, Meditation, and much more!

“The different types of concepts, as well as the type of talented professors, teachers, and coaches that are leading the workshops, will make a significant impact for the overall education for the Henderson community.” The first free event Sapience will hold, will have hundreds in attendance and is taking place on Saturday, August 3rd, 2019. The event will be an Art Discovery & Learning Workshop where Clark County’s top Art Teacher will teach participants how to draw, color, and paint their favorite Super Hero Character, Pokémon Character or Animal! The participant's work will be auctioned and 100% of the money given to the students, teaching them a life long lesson of that learning new skills have utility just like the old adage explains “skills pay the bills”

The Sapience isn’t stopping with free workshops; since they are known for their brain exercise classes where children develop the ability to do mental math faster than a calculator, they are going to empower kids in orphanages to participate. At least one seat per Brain Exercise Abacus team will be provided for a child in a local Nevada orphanage. Sapience estimates to provide orphanages \$240,000
